JUNE REALTOR® SPOTLIGHT

Presented by the Membership Outreach & Public Relations Committee

Savannah Casper

Company Affiliation: Paramount Real Estate Services

How long have you been in real estate: Licensed for 2 years but grew up with family embedded in real estate.

Tell us about your aspirations to grow the Casper Team at Paramount Real Estate Services: We are thankful for the team size at this point.

Tell us a little about your background in personal and in business: I was in retail management for 10 years and then decided to be a veterinarian assistant for three years along with doing networking for Dr. Rossman at West Salem Vision Center for 5 years, I grew up on a farm, Love to Travel...places of interest last year was Oslo Norway and Israel.

Do you have a MENTOR in your life: I work with Adi Klevit who is my business consultant and my dad Leo Casper is a big part of my mentorship.

What are current challenges you're seeing in the real estate market: There are a lot of buyers that have to sell before they can get an offer accepted. Contingencies make it harder and finding somewhere to rent is not easy right now.

Benefit of being involved in networks: I am an active member of four different networks. Salem Chamber Greeters, Business Networks International/Salem Partners for Success, Keizer Chamber and Retirement Connection. I am the luckiest agent in town! I work with the best people in Salem; networking allows me to build relations on trust and has taught me the philosophy of givers gain and this is a natural way of life for me.

Do you have niche within real estate: Working with the elderly and helping to downsize/right-size making their transition as smooth as possible.

Share with us your connection with volunteering and ways you give back to our community: I mentor youth ages 12-18, we call our self's the Mustang Makeover, we work with horses once a week and I help teach young youth to work and get involved in the community.
